Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a tire including a radial carcass reinforcement layer anchored to an annular bead reinforcement in each bead, radially outwards of the carcass reinforcement are at least two working crown plies of inextensible metallic cables crossed from one ply to the next, the plies each having respective widths at least equal to 50% of the width of the tread, radially outwards of the working plies are two protection plies of elastic metallic cables crossed from one ply to the next, the tread including an ungrooved portion in which at least one armature of reinforcement elements is located, wherein the armature includes at least two layers of textile monofilaments parallel to one another in each layer, and the axial widths of the two armature layers being at least equal to the width of the narrower of the working plies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references are considered to show tires having multiple
